World's Largest Project, Program & Portfolio Management Congress is Arriving in Rotterdam

Following the success of previous years' IPMA World Congresses, the 2014 edition will be held in the World Trade Center in Rotterdam, the Netherlands.

Three inspiring days with the most comprehensive program of best practices, new insights and academic findings combined with World Class PM awards, book launches, networking opportunities, site visits, Gala Dinner and Farewell Party.

Central theme of the 2014 Congress is: **Innovation through dialogue.**

Over 120 speakers in three days filled with the latest experiences and insights about Innovating the world through dialogue. Dialogue within projects, dialogue between projects (portfolios), dialogue over time (programs) and dialogue outside projects, with project owners, users and stakeholders. And of course the dialogue between the business and the academic world.

The IPMA World Congress is dedicated to provide valuable content for project, program and portfolio professionals. Independent program committees will judge speaker sessions to ensure they comply with the content driven philosophy of the IPMA World Congress.

In short, the place to be for ambitious managers, academics, researchers and other professionals on project, program and portfolio management.

Join the dialogue.

Sign up before January 1st 2014

Register now and take advantage of the Triple Early Bird.
